

Preface

Foreword

About Professor Arun S. Mujumdar and his Contributions

1. A Look at Professor Arun S. Mujumdar from Different Angles: A Tribute
Sakamon Devahastin, Guohua Chen, Maria Laura Passos and Huang Lixin
2. Professor A.S. Mujumdar's Contributions to Drying R&D: A Capsule Overview
Sakamon Devahastin and Guohua Chen
3. A Capsule Summary of Current Research Projects of Professor Arun S. Mujumdar at the National University of Singapore
Prasanta Kumar Dey and Huang Lixin
4. Two Decades of Dedicated Contributions of Professor Mujumdar to the Development of Drying R&D in China
Zhenxiang Gong
5. Reminiscences and Tributes

Section A - Spray and pulse combustion Drying

6. Comparison of CFD Model with Experimental Results for a Spray Dryer fitted with a Rotating Wheel Atomizer
Huang Lixin, M. L. Passos and A. S. Mujumdar
7. Computational Fluid Dynamic Simulation of an Industrial Spray Dryer for Coffee
Huang Lixin and Huang Weidong
8. Control Design Strategies for Milk Spray Dryers
M. Laura. Passos, Maria E. A. Freitas and Fábio Jota
9. Pulse Combustion Spray Drying
Zhonghua Wu and A. S. Mujumdar
10. A Parametric Study of a Novel Two-Stage Horizontal Spray Dryer
Lixin Huang and Sinyong Chan
11. CFD Simulation of a Co-current Spray Dryer fitted with an Ultrasonic Atomizer
Lixin Huang

12. Is Bombardier Beetle Design Suited for A Pulse Combustor?
Wu Zhonghua and Arun. S. Mujumdar

Section B - Heat Pump Drying, Energy Aspects, Food Drying

13. Chemical Heat Pump-Assisted Drying: Principles, Status and Future Prospects
Hironao Ogura and Arun S. Mujumdar
14. The Reaction Engineering Modelling Approach to Drying of Thin Layer of Silica Gel Particles
Xiao Dong Chen and Wayne Pirini
15. Highlighting some Questions of Grain Drying
Janos Beke
16. Evaluation of High Pressure Pre-treatments for Quality Enhancement in Apple Slices Subjected to Two-stage Osmotic and Convective Air Drying
H. Ramaswamy, Rhezlene Esqelli and Konstanze Graser
17. Role of Drying in Determining Nutritional/Functional Quality of Food and Biomaterials
Shyam S. Sablani
18. Evolving and Conventional Drying Technologies - Statistics and Examination from the Energy and Overall Quality Standpoints
Alves-Filho Odilio and A. S. Mujumdar
19. Heat Pump Drying Under Inert Atmosphere
M. N. A Hawlader, Conrad O. Perera, Min Tian, B. K. Ong and Kuan Jin Chng
20. Expert's Intelligent Control System for Tower Paddy Dryer
Li Changyou
21. Multi-Mode Drying of Various Heat Sensitive Materials Effect of Pretreatment on Quality and Drying Kinetics
Nurshirin B. M. S, Md. Raisul Islam and A. S. Mujumdar

Section C - Impingement Drying and Heat Transfer

22. Effect of Large Temperature Differences on Local Nusselt Number for Turbulent Slot Impingement Jet
M. B. Ray, Yu Ling Shi
23. Impingement Heat Transfer under Pulsed Single and Multiple Turbulent Air jets
A.S. Mujumdar, Hee Joo Poh, Kurichi Kumar

Section D - Superheated Steam Drying

24. Superheated Steam Drying of Food Products: A Review
Sakamon Devahastin
25. Drying Kinetics and Degradation of β -Carotene of Carrot Undergoing Different Drying Processes
Peamsuk Suvarnakuta, Sakamon Devahastin, Arun S. Mujumdar

Section E - Phase Change Heat Transfer

26. A New Steam Drying Method by Humidity-Swing Drying Schedules
Hironichi Shibata
27. Feasibility Study for the Application of Phase Change Material (PCM) in Thermal Management of Portable Electronic Devices
Ravi Kandasamy, So Zhao Ki and Toh Keng Wi
28. Cyclic Melting And Freezing Heat Transfer Using Paired Phase Change Materials
Xiang-Qi Wang, Christopher Yap and A. S. Mujumdar

Section F - Transport Processes

29. Industrial Convective Drying: A Unit Operation on the Way to Process Systems and Product Engineering
Evangelos Tsotsas
30. Water Sorption Isotherm and Drying Characteristics of Paddy
M. S. Uddin, M. N. A. Hawlader, Tang Li Hui and Grace
31. Convective Drying of a Heat Sensitive Solid: Comparison of Experiments with a Diffusion Model
Sun Lan, Md. Raisul Islam, Ho Juay Choy and Arun S. Mujumdar
32. Flow and mixing characteristics of three dimensional confined turbulent opposing jets
S. J. Wang and A. S. Mujumdar
33. Mass Transfer Enhancement in Micro-Channel Reactors
Adeniyi Lawal and John T. Adeosun
34. Drying Simulation of Cylindrical Rubber Pieces of Finite Length
Law Chung Lim
35. Upgrading Of Organic Wastes By Drying: A Case Study On Hog Manure
T. Kudra, Marzouk Benali
36. Heat Transfer And Fluid Flow Through Fractal-Like Microchannels
Xiang-Qi Wang, Christopher Yap and A. S. Mujumdar
37. Electro-Osmotic Dewatering of Marine Clay
V.M.K. Joshua, G. P. Karunaratne, S. H. Chew, A. S. Mujumdar, D. P. H. Leong and T. H. Teo
38. Some Numerical Experiments with Liquid Diffusion Models and their Practical Significance
A. S. Mujumdar, J. C. Ho and Raisul Islam
39. Modelling of Continuous Plug Flow Fluidized Bed Cross Flow Dryers
Wan Ramli Wan Daud

Section G - Miscellaneous topics in heat and mass transfer

40. Overview of R&D for Innovative Drying Technology in Japan
Yoshinori Itaya, Masanobu Hasatani and Shigekatsu Mori

41. Infrared Dryer for Home Use for Drying Biological Material
Radivoje M. Topic
42. Granulation and Drying Of Micro-Fertilizers: A Case Study
Shashikant Shinde, Sunil Wage, Ganesh Visavale, Hiren Panchal, Lalita Sanzgiri and B. N. Thorat
43. Transient Non-Darcy Free Convection Heat and Mass Transfer from a Vertical Flat Plate in a Porous Medium
Rami Y. Jumah and A. S. Mujumdar
44. Design and Development of Taylor Vortex Photocatalytic Reactor for Water Purification
Ajay K. Ray and Paritam K. Dutta
45. Potential application of microwaves in Bio-processing
G. S. V. Raghavan, Jianming Dai and Valerie Orsat
46. Effect of Different Drying Methods on the Morphology and Particle Size of Magnesium Oxide Nanoparticles
Wenbo Zhang, Baohe Wang, Fangrong Fan, Wei Zhang, A. S. Mujumdar, and Lixin Huang
