A philosopher and a practitioner

H Helpful

E Ethical

R Respectful to all

E Excel

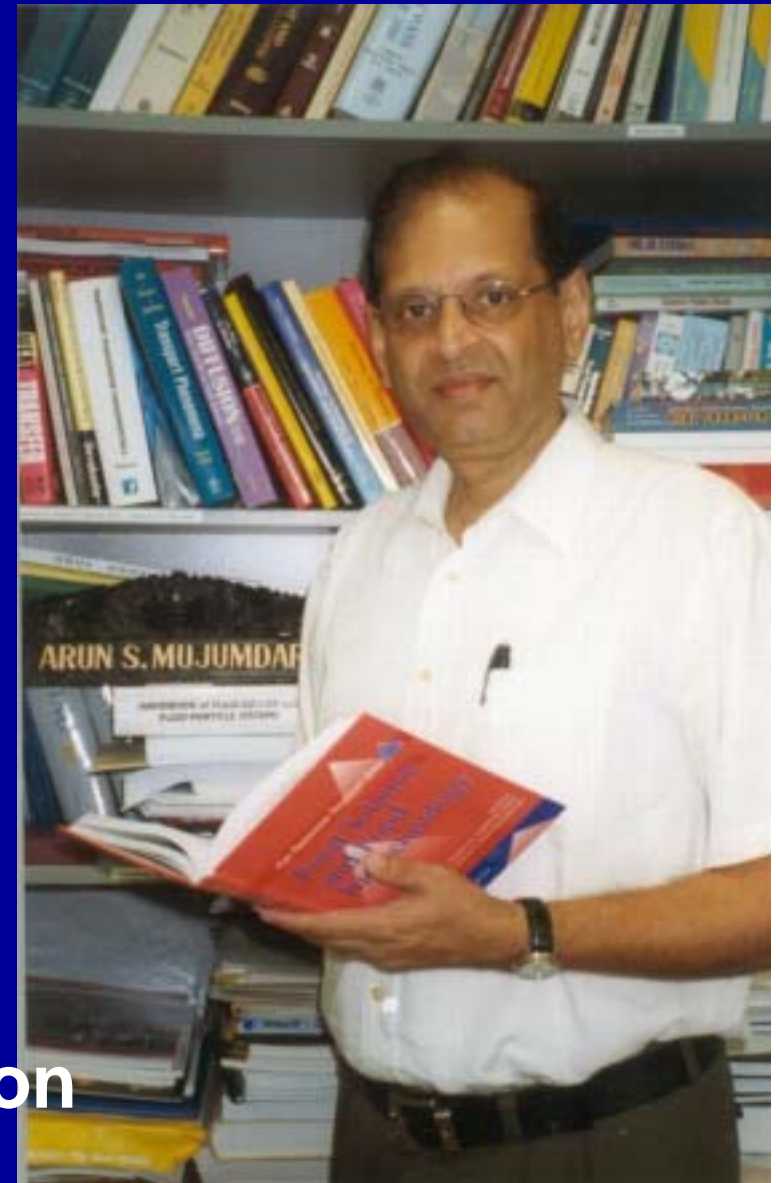

A Aim at Researcher

B Broad knowledge base

C Collaboration

D Decrease the resistances

E Encouragement & Motivation

Favorite Quotations

- **Engineering research by academics and for academics in academia is not a sustainable model for research. (ASM)**
- **Basic research is what I am doing when I do not know what I am doing. (Wehner von Braun)**
- **Research is the process of going up alleys to see if they are blind. (Marston Bates)**
- **Every research sub-field has its own sustainable level of R&D support. Overfunding, like overpopulation, can be dangerous to its survival. (ASM)**
- **Knowledge is proud it knows so much; wisdom is humble it knows no more. (ASM)**
- **Great beauty, great strength, and great riches are really and truly of no great use; a right heart exceeds all. (Benjamin Franklin)**

A mentor – his favorite title

Personal

Helpful

Depth & breadth
