

Final Year Research Projects

Supervised by

Professor A.S. Mujumdar

2004-2005

TS	Name	Project Title
TS27	Sng Cheng Hui	Evaporation from a single droplet under time-varying conditions
TS28	Jogesh Nambiar Devadas	Experimental studies of confined opposing jet flows
TS29	Ong Chee Bin, Benson	Computational fluid dynamic (CFD) simulation of confined opposing jet flows
TS30	Chan Kok Yong	Heat pump-assisted dehydration of various heat-sensitive products ¹
TS32	Loo Wai Leong	Experimental investigation of explosive vaporization of water
TS33	Tong Chin Hong	Multiple phase change materials (PCM) for thermal management of electronics cooling ²

1 – with Md. Raisul Islam

2 – with Kandasamy R., Agilant Tech.
