

CALL FOR PAPERS

www.wmc-expo2013.org

23rd World Mining Congress

August 11 to 15, 2013 - Montreal, Canada

Abstract Submission Deadline: October 1, 2012.

The Canadian National Committee of the World Mining Congress is privileged to announce the **23rd WORLD MINING CONGRESS & EXPO**.

The general theme of the Congress is "Mapping the Future: Advances in Mining Engineering" allowing for a wide diversity of mining-related topics to be discussed in concurrent sessions. You are invited to submit a two-page abstract (Max. 500 words) online. Authors whose abstracts are selected will then submit a full paper for peer review.

WMC 2013 will be held in parallel with the 30th International Symposium on Automation and Robotics in Construction, Mining and Petroleum (ISARC). Delegates will have the opportunity to benefit from both high-calibre events.

A selection of papers presented at WMC 2013 will be published in the *CIM Journal*.

Montreal will host the world of mining in 2013.

TOPICS

- Exploration, Mining Geology and Geostatistics
- Mineral Economics and Mine Finance
- Strategic Mine Planning and Risk Management
- Rock Mechanics and Geotechnical Applications
- Design and Planning of Mines
- Mine Ventilation
- Occupational Health and Safety
- Environment and Sustainability
- Energy Efficiency and Alternative Energy for Mines
- Intelligent Mining
- Mineral Processing
- Women in Mining
- Aboriginal and Community Partnerships
- Mining Education and Human Resources
- Rock Cutting Mechanics and Tunnelling
- Soft Rock (coal, potash, etc), Metal Mining, and Other Commodities
- Case Studies
